## Hawthorn Day <sup>[1]</sup>

Submitted by Matt DuBose (edX) on Tue, 07/24/2018 - 4:28pm

As we approach the production release of Open edX Hawthorn, we wanted to get as much feedback as possible from those d

- See the just updated [docs for installing the latest Hawthorn](#) <sup>[2]</sup> release candidate (RC3 as of July 30)
- Make sure you're pulling from the right tagged branch, eg. RC3

For Hawthorn Day, we will focus on issues with deployment, configuration, performance, and new features added since Ginn

- Completion API to help learners visualize progress within a course
- Adaptive video streaming
- Bundled Program and Course Group purchases

If you find an issue, please help us track it in our [Jira Project](#) <sup>[3]</sup>

. If you need help during Hawthorn Day, find us in the [#hawthorn-beta](#) channel on Slack ([instructions for joining](#) <sup>[4]</sup>).

Prizes will be given to those who install Hawthorn! If you install Hawthorn and tell us about it using this

[Google Form](#) <sup>[5]</sup>

, we'll send you this fabulous laptop sleeve. We will also send you a new Open edX t-shirt, (although we're waiting for them
